Historical Context:

The present Government House Mess (Grade II) was constructed in 1883 and it is likely that the stables, kitchen garden wall and guardhouse were built contemporaneously. This building appear in plan as seen today on the 1897 Ordnance Survey (1:2500) map.

The present building may have been rebuilt as the brickwork does not appear to be 19<sup>th</sup> century in date. It is assumed that this is a facsimile replacement of the original guardhouse and nonetheless forms an important part of the Government House Mess group.
