- (4.83) All smoke machines must be controlled and supervised by a competent operator at all times following the instructions given by the machine's manufacturers.
- (4.84) The volume of smoke must be kept to a minimum so as not to affect escape routes, cause obstruction of exit signs or cause false alarms in any smoke detection system.
- (4.85) Smoke produced by smoke machines that do not make use of carbon dioxide must be non-toxic and non-flammable in nature. Such materials used to produce the smoke must be covered by documentary evidence confirming its non-toxicity and non-flammability of the material.
- (4.86) Smoke machines must be adequately protected against unauthorised use and must be readily accessible to the operator at all times the machine is being used.

Use of Firearms

- (4.87) Firearms must be kept under the control of a designated responsible person at all times. Firearms must only be used by the designated person or by people under his direct control.
- (4.88) When not in use, firearms must be secured against access by people other than the designated person in a place to which members of the public do not have access.
- (4.89) Firearms must not be of a larger calibre than is necessary for the event.
- (4.90) All people using a firearm must be made aware of the venting direction of the firearm and the venting must not be directed towards either the operator, any other person on stage or any member of the audience.
- (4.91) Only crimped and wadded ammunition must be used.

Use of Foam Machines

- (4.92) Any foam machine and any other such equipment must be segregated from the public by a suitable barrier.
- (4.93) The foam machine must be powered in such a way and located in such a position that in the event of an emergency, the machine can be immediately disconnected.
- (4.94) Suitable warning notices must be displayed in the premises and suitable verbal warnings must be given throughout any activity during which a foam machine is in use advising of the associated hazards and any necessary precautions.
- (4.95) There must be no dangerous 'build up' of foam such that there would be difficulty in finding people in the event of emergency. If this occurs the foam machine must be switched off immediately.
- (4.96) A 'dead man's switch' must be fitted so that foam production ceases if the machine is unattended. Two trained competent persons must be available throughout the time the general public is in attendance to operate the foam machine.
- (4.97) Electrical leads and pipes carrying the foam concentrate must be taped down to prevent any tripping hazard.
- (4.98) All foam concentrates and other chemicals must be removed from public areas and kept in lockable containers.

Performances Involving Hypnotism**(4.99) (Publicity)**

- (4.100) No poster, advertisement or programme for the performance which is likely to cause public offence must be displayed, sold or supplied, by or on behalf of the licensee(s) either at the premises or elsewhere.
- (4.101) Every poster, advertisement or programme for the performance which is displayed, sold or supplied must include, clearly and legibly, the following statement:-

"Volunteers, who must be aged 18 or over, can refuse at any point to continue taking part in the performance."

(4.102) (Insurance)

- (4.103) The performance must be covered to a reasonable level by public liability insurance. The hypnotist must provide evidence of this to the local authority if requested; and it must be available for inspection at the performance.

(4.104) (Physical Arrangements)

- (4.105) The means of access between the auditorium and the stage for participants must be properly lit and free from obstruction.
- (4.106) A continuous white or yellow line must be provided on the floor of any raised stage at a safe distance from the edge. This line must run parallel with the edge of the stage for its whole width. The hypnotist must inform all subjects that they must not cross the line while under hypnosis, unless specifically told to do so as a part of the performance.

(4.107) (Treatment of Audience and Subjects)

- (4.108) Before starting the performance the hypnotist must make a statement to the audience, in a serious manner, identifying those groups of people who should not volunteer to participate in it; explaining what volunteers might be asked to perform; informing the audience of the possible risks from embarrassment or anxiety; and emphasising that subjects may cease to participate at any time they wish. The following is a suggested statement, which might be amended as necessary to suit individual styles so long as the overall message remains the same.

"I shall be looking for volunteers aged over 18 who are willing to be hypnotised and participate in the show. Anyone who comes forward should be prepared to take part in a range of entertaining hypnotic suggestions but can be assured that they will not be asked to do anything which is indecent, offensive or harmful. Volunteers need to be in normal physical and mental health and I must ask that no one volunteers who has a history of mental illness, is under the influence of alcohol or other drugs or is pregnant."

- (4.109) No form of coercion must be used to persuade members of the audience to participate in the performance. In particular, hypnotists must not use selection techniques which seek to identify and coerce onto the stage the most suggestible members of the audience without their prior knowledge of what is intended. Any use of such selection techniques (eg, asking members of the audience to clasp their hands together and asking those who cannot free them again to come onto the stage) should only be used when the audience is fully aware of what is intended and that participation is entirely voluntary at every stage.
- (4.110) If volunteers are to remain hypnotised during an interval in the performance, a reasonable number of attendants as agreed with the licensing authority must be in attendance throughout to ensure their safety.

(4.111) (Prohibited Actions)

- (4.112) The performance must be so conducted as not to be likely to cause offence to any person in the audience or any hypnotised subject.
- (4.113) The performance must be so conducted as not to be likely to cause harm, anxiety or distress to any person in the audience or any hypnotised subject. In particular, the performance must not include:-
- (i) any suggestion involving the age regression of a subject (ie, asking the subject to revert to an earlier age in their life; this does not prohibit the hypnotist from asking the subject to act as if they were a child, etc);
 - (ii) any suggestion that the subject has lost something (eg, a body part) which, if it really occurred, could cause considerable distress;
 - (iii) any demonstration in which the subject is suspended between supports (so-called "catalepsy");
 - (iv) the consumption of any harmful or noxious substance;
 - (v) any demonstration of the power of hypnosis to block pain (eg, pushing a needle through the skin).
- (4.114) The performance must not include giving hypnotherapy or any other form of treatment.

(4.115) (Completion)

- (4.116) All hypnotised subjects must remain in the presence of the hypnotist and in the room where the performance takes place until all hypnotic suggestions have been removed.
- (4.117) All hypnotic or post-hypnotic suggestions must be completely removed from the minds of the subjects and the audience before the performance ends. All hypnotised subjects must have the suggestions removed both individually and collectively and the hypnotist must confirm with each of them that they feel well and relaxed (the restriction on post-hypnotic suggestions does not prevent the hypnotist telling subjects that they will feel well and relaxed after the suggestions are removed).
- (4.118) The hypnotist must remain available for at least 30 minutes after the show to help deal with any problems which might arise. Such help might take the form of reassurance in the event of headaches or giddiness but this condition does not imply that the hypnotist is an appropriate person to treat anyone who is otherwise unwell.
